Preface

The present volume, the thirty-fourth in the series, surveys research on organic reaction mechanisms described in the literature dated December 1997 to November 1998. In order to limit the size of the volume, we must necessarily exclude or restrict overlap with other publications which review specialist areas (e.g. photochemical reactions, biosynthesis, electrochemistry, organometallic chemistry, surface chemistry and heterogeneous catalysis). In order to minimize duplication, while ensuring a comprehensive coverage, the Editors conduct a survey of all relevant literature and allocate publications to appropriate chapters. While a particular reference may be allocated to more than one chapter, we do assume that readers will be aware of the alternative chapters to which a borderline topic of interest may have been preferentially assigned.

There has been only one change of author since last year. We welcome Dr C. Bedford as author of Reactions of Carboxylic, Phosphoric and Sulfonic Acids and their Derivatives. He replaces Dr W.J. Spillane, whose major contribution to the series, through provision of expert reviews since 1983, we wish to acknowledge.

We regret that publication has been delayed by late arrival of manuscripts, but once again wish to thank the production staff of John Wiley & Sons and our team of experienced contributors (now assisted by Drs J. Sherringham, P. Dimopoulos and D. P. G. Emmerson) for their efforts to ensure that the standards of this series are sustained.

A.C.K. W.E.W.

CONTENTS

1.	Reactions of Aldehydes and Ketones and their Derivatives	
	by B. A. Murray	1
2.	Reactions of Carboxylic, Phosphoric, and Sulfonic Acids and their	
	Derivatives by C. T. Bedford	35
3.	Radical Reactions: Part 1 by A. J. Clark and J. Sherringham	117
4.	Radical Reactions: Part 2 by A. P. Dobbs and P. Dimopoulos	153
5.	Oxidation and Reduction by B. G. Davis, D. P. G. Emmerson and	
	J. A. G. Williams	217
6.	Carbenes and Nitrenes by J. G. Knight	253
7.	Nucleophilic Aromatic Substitution by M. R. Crampton	275
8.	Electophilic Aromatic Substitution by R. G. Coombes	287
9.	Carbocations by R. A. Cox	297
10.	Nucleophilic Aliphatic Substitution by J. Shorter	323
11.	Carbanions and Electrophilic Aliphatic Substitution by A. C. Knipe	349
12.	Elimination Reactions by A. C. Knipe	389
13.	Addition Reactions: Polar Addition by P. Kočovský	419
14.	Addition Reactions: Cycloaddition by N. Dennis	453
15.	Molecular Rearrangements by A. W. Murray	487
	Author index	617
	Subject index	653
