Apollo 11 VR

Apollo 11 VR is the story of the greatest journey ever taken by humankind.

Now for the first time ever, you get to experience this historic event through the eyes of those who lived through it. Using a mix of original archive audio and video together with accurate recreations of the spacecraft and locations, all set to inspirational music. Get set for an experience that will not only educate you but will also leave a lasting impression and deep respect for the men and women who worked on the Apollo program during NASA's golden era.

Apollo 11 VR is a new type of documentary, not only do you get to relive the events of 1969, you can also take control and fly the command module, land the lunar lander, explore the Moon's surface and deploy the lunar experiments all before returning to earth in a fiery re-entry.

Take one small step today and climb aboard Apollo 11 for the journey of a lifetime.
