This Week's Video Tutorial

Members Tutorial
SCO0323 iA Writer/iCloud & Remote iPad Support

Apple still haven't fully released all the components of iCloud for it's own applications. Most notably, whilst "Documents in the Cloud" is great on iOS, iWork on the Mac doesn't fully support it yet.

Beating Apple to the punch is iA Writer, a simple text editor that has just been updated with full "Documents in the Cloud" support, allowing you to seamlessly work on documents both on your Mac, and on your iPad. This tutorial explores how this new and exciting feature has been implemented on the Mac.

In addition, I take a look at a rather unique and innovative way to provide remote iPad support, using iCloud and Apple TV of all things!

Take Control Ebooks

The Answers You Need Now, from Leading Experts

Featured Titles (or [Visit Our Catalog](#) to see all our ebooks)

Take Control of Your iPad

Optimize your iPad experience! Take Control editor-in-chief (and iPad geek) Tonya Engst explains setup and syncing, as well as tapping, typing, and overall navigation. She also shares tips for getting more out of core Apple apps, including Safari, Contacts, iBooks, and Music. Pore over key sections to fill gaps in your iPad know-how, or flip through whenever you need a quick tip or refresher. [More info...](#)

Take Control of Mail on the iPad, iPhone, and iPod touch, Third Edition

Need real-world advice about using the Mail app on all of Apple's iOS devices? Email expert Joe Kissell explains how to devise an effective mobile strategy, plus how to configure accounts and the best ways to receive, send, read, and file your email. You'll also find troubleshooting help. [More info...](#)

Take Control of Using Lion

With Matt Neuburg's help, come up to speed on Lion's key new features - Auto Save, Versions, Mission Control, Launchpad, gestures, full-screen mode, and more - and customize Lion to suit your needs. Whether you are excited about Lion's new features or just want to get back to work, this ebook explains what you need to know. [More info...](#)

Take Control of iCloud

iCloud may seem simple, but complexity lurks beneath the surface. Joe Kissell explains what iCloud does and doesn't do, how to move from MobileMe to iCloud, what hardware and OS versions are necessary, and important usage details for the iCloud Web apps, iTunes in the Cloud, iCloud Backup, Photo Stream, shared iCloud calendars, and Find My iPhone, among much else. Photo Scanning As low as 8¢ per scan

Your pictures are professionally scanned at 300dpi True Color 24-bit JPEG files, put onto a DVD data disc for viewing/editing on your home computer and returned to you with your photographs. All work is completed on-site in Irvine, CA so your photo memories never leave our sight during scanning and are shipped out within 21 business days of receipt. Two great services to choose from:

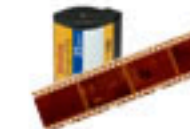

- Prepaid Photo Scanning box for \$184 with 100% free shipping (mail order only), Pay-per-1,000 for \$79.50 per 1,000 photos (walk-in or mail order)

Slide Scanning As low as 27¢ per scan

Each slide is individually hand scanned by our professional technicians and delicately adjusted to achieve the optimum color and density so you end up with the best possible scan. Choose either 2,000 or 4,000 dpi JPEG files. Most scans are scanned using Digital ICE which works to detect and reduce dust and surface scratches. Choose from two services:

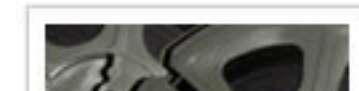

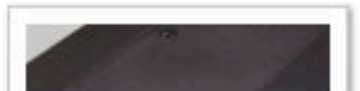

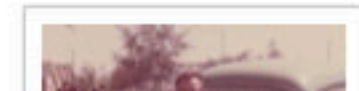

- Prepaid Slides Scanning box for \$249 with 100% free shipping (mail order only), Pay-per-slide price varies based on quantity (walk-in or mail order)

Negative Scanning 35mm, APS & 120mm

Every negative is hand scanned by one of our trained technicians and then adjusted to achieve the optimum color and density so you end up with the best possible scan. Choose either 2,000 or 4,000 dpi JPEG files for 35mm or APS 1,000 or 2,000 dpi for 120mm scans. ALL negatives are scanned using Digital ICE which works to detect and reduce dust and surface scratches.

- 35mm negatives just 39¢ per frame, APS just \$5 per roll (15, 25 or 40 exp.), 120mm as low as \$1.89 per scan
