Music

Use this section to enable AirTunes to display this base station in the iTunes remote speakers list.

Enable AirTunes on this base station

Enable AirTunes over the Ethernet port

Provide a name to be used when playing iTunes music through remote speakers using AirTunes. When used with iTunes, this name will appear in the iTunes pop-up menu to select remote speakers.

iTunes Speaker Name:

For example: Living Room

Optionally, you may assign a password which will be used to restrict access when playing iTunes music through remote speakers using AirTunes. This is the password you will enter when prompted by iTunes.

iTunes Speaker Password:
