This section is used to define how access to the Internet is restricted to the wireless clients listed here. If none are listed, all wireless clients can access the network if they can authenticate with it.

AirPort ID	Description

This section is used to define the location of RADIUS servers. If RADIUS is used, only clients with valid AirPort ID's will be allowed to access the AirPort network.

RADIUS: Primary IP Address: Port: Shared Secret: Secondary IP Address: Port: Shared Secret:
